Response Rate:	100.00% (9 of 9)
1	very knowledgeable and helpful.
2	Very helpful when answering questions or giving feedback
3	She prepares the board very effectively everyweek, during lab she is available everytime and shows entutiasm with the subject...thank rafa it was very joy to work with you, you will be perfect instructor."
4	She is an asset - is very passionate about teaching, explains everything well.
5	She is always very cheerful and helpful
6	Raafa is extremely friendly and easy to get along with. She is fair with marking, and works very hard to answer all the questions we ask. She goes out of her way to help us understand what we are doing in the labs.
7	Explains concepts very well.
8	Explains concepts
9	Being prepared, speaking clearly, and explaining in a way students can understand.

Question:	What has the Teaching Assistant done well?
Response Rate:	100.00% (11 of 11)
1	Was very well prepared, willing to answer any question and marked fairly."
2	Thorough instructions on board
3	She is good with explaining certain topics and helps every students.
4	She is always well prepared for class.
5	She has been able to answer all questions when asked. She lays out the notes on the board near and organized so they are easy to read and understand."
6	Raafa was the best teaching assistant I have ever had. She was a good but fair marker as well. I really enjoyed having her and would choose her as a Teaching Assistant again if I had the choice.
7	Raafa is very energetic and organized in the lab
8	Raafa is very well educated in this course material and therefore was able to respond to questions in the most effective manner. Her assistance leads students to the right answer rather than just giving telling students what to do. She is very happy and it is nice to have a TA who enjoys her job.
9	Raafa has been very helpful in explaining key concepts for not only the lab but the course aswell
10	Prepared class material and lab objectives to an above and beyond level.

11 Everything, she is brilliant, she knows so much about our physics course and she is always well prepared for the lab portion even if we would make a mistake she knew right away how to fix it. She is so caring towards the students and helps in every way she can.

Question:	How could the Teaching Assistant improve?
Response Rate:	100.00% (11 of 11)
1	n/a
2	The discussions at the beginning of the class are very helpful but can be a little too wordy at times which make the explanations sometimes confusing. Other than that, great TA overall.
3	She could help students comprehend the lab materials and better explain what to do in the labs
4	She could improve by maybe explaining just a bit more what the lab is about and stuff like that. But overall not much needs improving as she was a good TA."
5	She could better convey her understanding of the material on the students.
6	Respecting student's time
7	Raafa occasionally spends too much time explaining the lab in the beginning
8	Nothing, Raafa was fantastic and I hope she continues to be a Teaching Assistant. She taught me more than my professor.
9	I don't know. Was very competent, helpful and was probably my favourite TA."
10	Could more clearly explain the lab, and provide feedback to how and why some questions were marked.

Response Rate:	100.00% (14 of 14)
1	very helpful and ensures that we are learning correctly.
2	There for help and very accommodating. Helpful and very nice."
3	She is the most amazing TA. She takes time out of her busy schedule to help students out."
4	She is patient with the class and works hard so that everyone understands the objective of the lab.
5	She is passionate about physics and shares it with us in the lab. She is very friendly and has a great sense of humour. Raafa makes the lab enjoyable and interesting and I hope to have her as my physics TA again!! Thanks for a great semester Raafa!
6	She is nice and well prepared. Also she did put so much effort on us.
7	She is always prepared for class and eager to help us. Marks our assignments on time and brings enthusiasm to the lab.
8	She is a great help when it comes to questions that may appear and is always available.
9	She has always been clear in her instruction giving us the necessary without much confusing unneeded information. She has always been fair with marks and part marks when they are deserved.
10	Raafa is very knowledgeable and approachable when it comes to teaching physics whenever I have a problem with anything she's there to help me.
11	Raafa is extremely helpful in explaining the labs as well as aiding you during the actual lab.

12	Provides very clear explanations which help either understanding not only the lab but the course."
13	Provided an amazing learning a atmosphere. Fun to do do challenging but was of great great help.

Question:	How could the Teaching Assistant improve?
Response Rate:	100.00% (14 of 14)
1	very good! no improvement needed
2	There has been occasional confusion with how to set up the computer program Loggerpro, but it could just be a confusing program or confusion in the lab manual.
3	The only problem was there was sometimes a language barrier, but that's not her fault and imm sure her English will improve in time.
4	Sometimes her explanations of the labs can be confusing because she jumps from part to part very quickly.
5	Sometimes talks a little too much - although most of the time it is things we need to know that will help the lab run more smoothly"
6	She needs to be more in control"
7	She did everything well. If I had to change one thing, I'd like her to focus a little bit more on the procedure of the labs. Other than that everything was perfect.
8	She could improve by better explaining the procedure of the labs.
9	She could be a little bit tougher on some students and maintain a higher level of control over the way she is approached for help. She needs to know that it's ok to tell students to wait their turn and that she doesn't need to go easy on us and lead us to the answers so readily.

1	n/a
2	Very helpful and organized, knows what she is doing prior to class.
3	The TA always tries to help you toward the answer instead of just giving it to you, so you learn the material on your own.
4	Super helpful. Makes us feel comfortable asking for direction.
5	She is very helpful in using the programs and deriving equations.
6	Raafa is the absolute definition of a teaching assistant. She is extremely kind, and the most helpful TA that I have ever had in university. I feel very comfortable approaching her with any question, and she encouraged me to work my own way to the answer, while assisting me. She was the best part of the entire physics course, you can tell that she wants nothing more than to have us succeed, and will help any student, any time, with anything they are having trouble with. One of the nicest people I have ever met, other TA's should take a page out of Raafa's book!
7	Raafa is extremely helpful, intelligent and encouraging. She provides as much help as possible but still makes the students think.
8	Raafa has done everything extremely well. She is an amazing teaching assistant. I am not very good at physics, but with her teaching and explanations, I have done great in this course. She is very helpful with one on one questions and goes that extra mile to make sure everyone is understanding and doing well. She is very passionate about teaching and it reflects in her work.

9	Provided a clear explanation of what was expected of students
10	Most things. Good job bro
11	Is very helpful and helps outside of class
12	In helping students knowing the physical facilities."
13	Has a great desire for students to succeed. She puts in her best effort so everyone understands the material and what is to be done. Very kind and thoughtful person.
14	Best teaching assistant I have ever had in 4 years of university, helps students actually understand what is going on in the lab

1	Well organized, very knowledgeable
2	She was very helpful, always willing to answer questions even outside her office hours, and she always responded very quickly. She was well prepared for labs and did everything she could to help students succeed. She was also very knowledgeable about the subject so able to answer any questions we had.
3	She was clear and understanding. She was really engaging in physics and she made a boring subject really interesting and knowledgeable.
4	She is very good at explaining what was confusing.
5	Raafa was always prepared with visuals to aid in student understanding of lab objectives and portrayed well her desire for us to succeed.
6	Give really good explanations

Question:	How could the Teaching Assistant improve?
Response Rate:	100.00% (7 of 7)

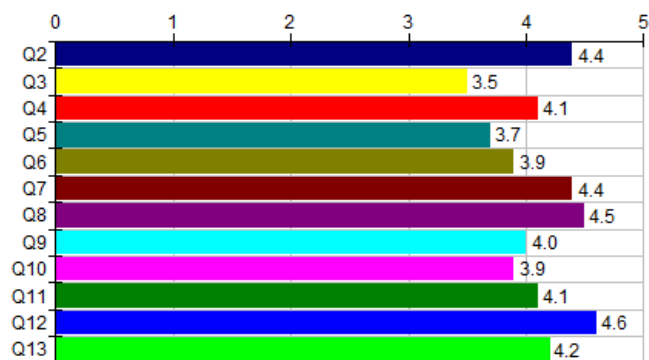

1	Some of the labs were not explained well in the lab manual. Those labs could have used extra demonstration instead of written instruction. The lab manual should really be re-written to include more diagrams and step by step instructions. Much time was wasted in lab trying to figure out what to do when the lab manual did not have any instruction about it.
2	Nothing
3	Nothing, keep up with the good work
4	Can't think of how she can
5	Better communication? Her accent is very heavy and difficult to understand her most of the time.
6	Being sure to listen to students entire question before interrupting and answering.

Response Rate:	100.00% (17 of 17)
1	tries hard to answer everyones questions.
2	she's really helpful and tries to help us as much as possible
3	Well prepared and ready for the lab, she helps us complete it in a timely manner.
4	Well organized and always has important notes on the board which helps with understanding alot.
5	She writes the basics of the lab on the white board for the students to use as a reference.
6	She made the labs much more understandable and saved us plenty of time by explaining it to us if we were stuck.
7	She is very enthusiastic about the lab and nice.
8	She clearly wants to be here and conveys enthusiasm. She is concerned with our understanding of the material and is flexible enough to see the reasons behind the lab rules, preventing unnecessary strictness.
9	She always answers questions we have and clears up any confusion. She also responds to emails very quickly.
10	Raafa is makes some lab easier for us to do with the write up she put on the board at the beginning of class. As well as checking our graphs while we are doing the assignment to see if they are able to be used as data.
11	Helping with questions about the lab.

12	Good lab ta, explains how to do labs very clearly.
13	Good job preparing for labs and helping.

1	n/a
2	communication
3	Usually misunderstands questions and explains something you already know/aren't asking. Otherwise fantastic TA!
4	To make the lab run smoother for the student, Raafa should inform them of the labs that need error or say to do error unless told other wise. This will help allow us to collect the data for error in all of the trails, no just in the one we do after we understand what is actually needed.
5	Sometimes the explanations of the lab were confusing and unclear. Next time just try and elaborate more on the explanation
6	Sometimes the way she addresses students resembles how an elementary school teacher tries to gain her class's attention. It's unnecessary; if she begins to talk, we'll listen. If we don't, then we fail, and that'd be our fault.
7	She sometimes has a confusing way of explaining concepts
8	She needs to improve on her explanation skills
9	She has done well
10	She could improve by explaining the lab a bit more clearly.
11	Mark a little bit easier, and also be more assertive.
12	I see no major need for improvement
13	Give ALL the information required during the lab (ie error)
14	Explaining how to calculate uncertainty better.
15	By speaking slower and more clearly.
16	Answer questions more effectively, overall great TA!

Question:	What has the Teaching Assistant done well?
Response Rate:	100.00% (8 of 8)
1	by giving us helpful notes on the board, and allowing us to just ran with the lab when we get there without hearing a long introduction.
2	She is very good about not talking too much at the beginning of class.
3	She is extremely helpful and ready to answer any question effectively and excitingly. She is so energetic and shows a lot care to her students and wants all to get full mark. She has broad knowledge of the subject and made the lab so interesting and easy.
4	She has appropriate knowledge of the course content, and is able to help us set up our apparatus.
5	Raafa was really helpful when answering questions in the lab and assisting with the procedure when necessary
6	Raafa is extremely nice and she is knowledgeable in physics.
7	Providing a great working environment with plenty of opportunities to ask questions. As well as teaching in a manner that easily passes knowledge from teacher to student. Overall great job Raafa!
8	A positive TA that is approachable. She marks fair and I enjoyed going to lab! Writing our names on the board for questions is a great idea.

Question:	How could the Teaching Assistant improve?

Response Rate: 100.00% (8 of 8)

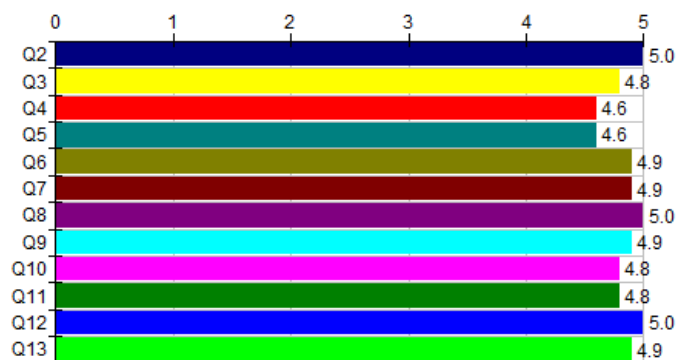

1	i don't like the name list for questions, i find it does not actually work well
2	She doesn't answer questions very well, taking too long to explain a yes or no question, and she speaks to everyone as if they are 5 years old.
3	She could work on how she answers our questions. Sometimes the answers are little to no help.
4	Providing more feedback on work and give tips on how things can be done more effectively.
5	Maybe going a little bit into detail of the lab for tricky parts. Otherwise, awesome job!
6	It often took a long time to mark the lab assignments
7	I preferred when she would write the instructions on the board instead of explaining the lab
8	I dont know, I think she is quite good

Question:	What has the Teaching Assistant done well?
Response Rate:	100.00% (17 of 17)
1	explains everything well, always available when we have questions, explains the labs concisely and quickly. the best TA
2	Very very good ta. helps student get things done effectively and efficietnly. Very kind and organized, never late and always replies to emails quickly
3	She's very helpful and good at explaining, she's awesome.
4	She is very good about answering any questions that we may have. Especially emiled questions. It makes it a lot easier for me with my busy schedule when I can't meet office hours. I can reply on her to answer my question in a timely order. She also makes the concepts very clear and willeasy to understand
5	She is exceptionally good at helping out, and always ensures we know exactly what to do. She is always insanelly sweet.
6	She is amazing at explaining everything very clearly. Her marking is very fair and she is very available and approachable for any help and is genuinely happy to offer you assistance. She makes you feel as if she really does want you to succeed. She is my favourite TA and I am very glad she was my physics TA.
7	Responding to emails
8	Raafa took the time to help me understand the bigger picture of the subjects. I found that I learned the information from both lecture and lab when I was able to speak to her and ask her pointed questions. Raafa was one of the best TA's I have ever had
9	Raafa provided enough to information that the lab could be performed to the best of our abilities. She answered questions well, and she was always willing to assist outside of class time.

10	Raafa is extremely caring for students having trouble with any problems in the lab, and is very quick to respond to any emails. She is very approachable making it easy to go in and ask for help.
11	Raafa has gone above and beyond as a TA. She is so approachable and she is always available to help out. She never makes me feel bad for not knowing certain topics and instead works with me until I understand it. I loved having Raafa as a TA, she made physics way more bearable.
12	Is very helpful and is always willing to help you with physics problems; always provides a clear outline with clear steps. Overall she is the best TA that I have had in any of my labs so far!
13	Her pre lab talks are phenomenal and it is really easy to communicate with her both in school and out.
14	Has been very helpful with assignments both in class and out.
15	Explanations and outlines of Labs are done well.
16	Being completely honest, I'm a 4th year student this year and Raafa is without a doubt the best TA I've ever had. She is amazingly helpful, kind, prepared, knowledgeable, and has gone above and beyond to help us do well this semester. She made the physics lab experience much better than I thought it would be. Well done.
17	Been very vocal and allowed us every opportunity to improve

Question:	What has the Teaching Assistant done well?
Response Rate:	90.00% (9 of 10)
1	very helpful during labs and well prepared .
2	she gave out the instruction of every lab very well and respect all the students in the lab
3	She was always very well prepared for the lab each and every week coming to class with an awesome amount of enthusiasm. She was always willing to help students with whatever they needed. Student well being seemed to be her biggest priority, treating everyone with respect and making friendship with every student in the class. If there is an award for the best TA, Raafa deserves it.
4	Really helped make the lab portion understandable and helped teach the course content effectively
5	Everything
6	Everything. Best TA i have ever had.
7	Everything! Raafa was the best TA I have EVER had. She went above and beyond to help students, and was incredibly caring and respectful.
8	EVERYTHING! Raafa is amazing. I honestly hate physics and dread going to lecture and tutorial, but I did not dread going to this lab. Raafa makes physics tolerable, and is so polite and happy and is just awesome.

9	Amazing instructions on the board. Serves as a useful guideline. Really enjoy this lab over ANY other. Raafa made physics INTERESTING!

Question:	What has the Teaching Assistant done well?
Response Rate:	88.89% (8 of 9)
1	best TA ive had. Very helpful always offering help always available. responds to emails very quickly
2	Very well organized, ran the lab very efficiently, super helpful when we had questions, was always able to give feedback and explain the concepts we were learning from lecture, really nice to everybody!
3	She taught well, she answered questions well, she was helpful with difficult problems and didn't simply give you the answer but the required information aiding my aprtner and myself in firguring things out ourselves. She is by far the ebst TA I have ever had and I can see no end to the great things I have to say about her. She is excellent she teache s wellful and she isendlessly patient in dealing with a student unable to quite grasp a concept. Good on you fro choosing her to be a TA , she was amazing,and I could think of no one better.
4	Raafa was the best TA I've had so far, made the lab more bearable and helped with understanding the lab material
5	Helping students on work
6	Explained concepts really really well and discussed the procedure before the experiment in an easy to understand way which makes it easier to carry out the experiment. Raafa was also really good at making physics seem less challenging and not simply as a requirement but as an interesting field of study.
7	Clearly being able to explain questions. Answers emails very fast.

	-very knowledgeable on subject matter
8	-answers any questions you have
	- not too strict on deadlines

Faculty:	Abdulla, Raafa
Question:	How could the Teaching Assistant improve?
Response Rate:	44.44% (4 of 9)
1	She could not improve in any areas that I have seen, she is the best TA I have ever had,
2	Nothing.
3	Marking scales needs to be improved
4	- explaining the lab more clearly at the beginning, however this was probably more of an issue because the lab manual was so vague (no intro/ procedure steps like other lab manuals have)
